*Apps shown is for reference purpose only.

Without Noise Reduction Technology

With Noise Reduction Technology

CLEAN VIEW

Hisense TV adopts a whole solution of noise reduction technology that automatically analyze the input signal and remove detected noise, it offers cleaner picture and better viewing experience.

UHDTV

TOTAL TECHNOLOGY AUDIO ENHANCEMENT

Total Sonics[®]

Total Volume[®]

immersive sound with deeper and intensifying quiet dialog. bass and decreased distortion. Total Volume creates a more makes dialog clear and crisp, consistent and enjoyable and creates a natural soundfield. listening experience.

Total Sonics generates detailed, By taming loudness spikes

Total Surround Total Surround make sounds

appear front, rear, and above the viewer transforming dull and lifeless TV sound into an enveloping audio experience.

DEPTH ENHANCER

Hisense Depth Enhancer technology can analyze image and adjust the dynamic contrast automatically, add layers of contrast to the background, midground, foreground to give even further depth of image.

HDR BENEFITS

Thanks to HDR (High Dynamic Range), previously hidden areas of dark shadow and sunlight are now full of clarity and detail. You'll notice sharp contrast and subtle details that were once reserved for the movies. It revolutionizes every aspect of your viewing experience with our UHD TVs.

SUPER CONTRAST

Hisense UHD TV can adjust the contrast automatically to lead to darker black. This gives you detailed contrast between the lightest and darkest areas of the screen to provide viewing experience that really stand out.
